SAVA HOTELI BLEĐ

Bled and its sights, the island in the middle of the lake and the church with its wishing bell, the mighty castle on the rock, traditional pletna boat rides, the Triglav National Park, the original Bled cream slice, the swans... We could write entire novels about each of these things.

We can also tell you that the fairytale-like nature, unique climate and immense energy of Bled have always been thought to have special healing powers; Bled's tradition of natural treatments dates back to the 19th century, when Arnold Rikli founded his famous health resort here. The resort was based on the wealth of Bled's natural resources: the clean, invigorating Alpine air, the healing thermal water and the high number of sunny days each year.

We could talk about how pleasant it is to swim in the Živa Wellness swimming pools with views of the Bled panorama, be it covered in snow or glowing in the summer sun. You are also certain to be impressed by descriptions of the superb wellness services provided by our hotel wellness centres, or you can visit one of our restaurants and experience the harmony of flavours created by the combination of excellent cuisine and the finest Slovenian wines.

We can also promise you that in the Sava Hoteli Bled, you will never be bored and neither will your children. They will be entertained by Zaki the swan, the playful and loveable mascot of the family Hotel Savica. When you are here with your family, time will pass all too quickly thanks to the many opportunities for recreation, cycling, hiking, walks by the lake and much more. As you set up your tent in Bled Camping, you will notice the wealth of nature all around you. The natural features and extreme diversity of the plant and animal species at the Bled Golf Course are astonishing; thanks to its magnificent natural surroundings, Golf Bled is known as one of the most beautiful courses in Europe. Also, if you visit us for a business or conference event, we will make sure that everything goes smoothly.

Yes, we could spend years talking about all these things, but there is really no need for words. Bled is something you simply need to visit and experience to absorb its magic through your every pore. You will want to return here again and again to recharge your energy in Bled's bottomless springs. We are convinced that you will not put off your next visit for long.

Welcome!

Bled

Bled, the Alpine Jewel of Slovenia

There is only one island in Slovenia, but it is more beautiful and appealing than most island chains anywhere. It is situated in an Alpine lake, surrounded by picturesque mountains. For centuries, it has been an enchanting symbol of the town that modern tourists are just beginning to discover and to which they often return. If you are looking for something different and beautiful, for relaxation and inspiration, a rest or sporting activities, you will find a thousand possibilities in Bled.

Romantic walks or a carriage ride around the lake, a trip in a traditional pletna boat to the idyllic church on Bled island, a visit to the mighty castle on top of a vertical cliff by the lake, the nearby ski slopes, mountain hiking trails, golf course, hunting, fishing, casino – these are just some of the things you can do in Bled.

The natural sights in the surrounding areas enchant visitors from near and far with their unspoiled and intoxicating beauty. There is the Triglav National Park, Slovenia's only national park, which offers numerous possibilities for great hiking excursions. The wild, untamed nature of the Blejski Vintgar gorge is breathtaking; a ride on the aerial tramway to the Vogel ski slopes offers magnificent views of the Gorenjska region, and a trip to the nearby Bohinj and the Savica waterfall is still one of the most popular daytrips.

Bled also makes an ideal starting point for trips to other parts of Slovenia. Ljubljana, the capital, is less than an hour's drive away or you can visit the Predjamski grad castle and the Postojna cave. If you are not tempted by its mysterious depths, you can try rafting on the emerald green Soča river. On your way from Bled to the Soča valley, you will cross Kranjska Gora and the Vršič mountain pass – a fascinating trip in itself.

These are just a few of Bled's many attractions. Once you experience them for yourself, you will always long for them.

Wellness

Many first-time visitors to Bled are surprised by the mysterious power of this wonderful place. The person who started the Bled tradition of natural healing was Arnold Rikli, who founded his famous health resort here in the 19th century to bring visitors from all over the world closer to the mysterious healing power of Bled. This power is based on the invigorating Alpine air, the healing thermal water and the high number of sunny days per year. It seems that even a simple walk by the lake and view of the island and its church have a beneficial and magical effect on your well-being and entire body. Just think how well you will feel after visiting one of the Sava Hoteli Bled wellness centres. You will find something special in each of them, something that makes a visit to each centre worthwhile. Just relax and enjoy...

Živa Wellness

Although the church of Mary stands on Bled Island today, according to tradition this was once a place where Živa, the ancient Slavic goddess of life and fertility, was worshipped. It is this goddess that the wellness centre in the Hotel Golf was named after. The centre comprises swimming pools with thermal water, a world of saunas and a beauty centre for the body and soul.

Here you can swim in thermal water (30 °C) in the swimming pool area, which delights the visitors with pools on two levels connected by a waterslide and an outdoor pool that is open the

whole year round. Children can play in the special children's pool, while adults can relax on massage beds and in two whirlpools. In the summer when the caretaker opens the glass front, you will be embraced by the fresh Alpine air and it will seem as though you can almost touch the Bled Castle. The view from the summer terrace is absolutely enchanting.

Healing Water

The healing properties of the Bled thermal water were first recognised as early as 1818, when word of Bled's healing powers spread far and wide. The Bled thermal water has a relaxing effect on the body and eases joint pain, while the minerals in the water have a soothing effect on the skin.

World of Saunas

After trying one of the two Finnish or two Turkish saunas, you are sure to enjoy a rest on the terrace with a beautiful view of Bled. There are several options for cooling down between saunas: the Laconium, a pleasant resting area with heated benches, a resting area with heated stone beds and a shower of experiences with special effects and a whirlpool. For your sauna experience, you can choose a hot Finnish sauna (85-90 °C), a Finnish sauna (60-65 °C) with aromatherapy and light therapy, a steam Turkish sauna or a Turkish sauna with aromatherapy.

Guests of the Grand Hotel Toplice can access the lake from the private hotel beach. You can also have a beautiful vacation in nature and stay in Bled Camping. As you look from the shore to the mighty cliff under the Bled Castle, remember that every drop of water contains the whole world.

Gastronomy

There are certain experiences not to be missed in Bled. One of them is undoubtedly to enjoy the original Bled cream slice, while many people also never visit Bled without stopping for coffee in the Lake Salon at the Grand Hotel Toplice, renowned for the best views of Lake Bled. They say that the coffee also smells even better there! Add to this the culinary masterpieces in the à la carte Julijana, Veranda and Rikli restaurants, combined with the finest Slovenian wines, and you get an adventure worthy of your complete attention. When you are choosing your “adventurous” meal, ask the sommelier for his advice and discover Slovenian wines...

The Grand Restaurant in the Grand Hotel Toplice is intended for hotel guests as a breakfast room, as well as for lunch and dinner. The dishes are an excellent combination of international and traditional cuisine, completed with a selection of fine Slovenian wines. The Grand Restaurant also boasts a beautiful hall for weddings, banquets and other events for private groups of 50 to 220 people. Both the restaurant and the hall are located directly on the lake shore and have a private covered terrace.

The Julijana À la carte Restaurant is renowned for its excellent international cuisine and exclusive location on the lake shore, as well as for the fact that the Grand Hotel Toplice chefs prepare many of the dishes right in front of the guests. Many eminent politicians and businesspeople have indulged in the gourmet delights of this restaurant throughout the years.

For relaxed evenings with piano music, there is the **Aperitif Bar**, the day and night hotel bar famous for one of the most beautiful views in the world.

Summer is the time to sit under the chestnut trees by the lake. While enjoying light snacks and cocktails or milkshakes in the **Jezero Bar**, you will forget your everyday worries and give in to the relaxed holiday atmosphere.

The Panorama Restaurant, just a few steps away from the Grand Hotel Toplice, is renowned for its excellent desserts. There is the famous original Bled cream slice but their homemade ice cream, prepared with fresh fruit and no preservatives, is also

delicious. But Panorama is not just aimed at people with a sweet tooth; in addition to their regular à la carte menu, they often hold themed weeks of international cuisine, enhanced on Saturdays and holidays by dance evenings and other social events. The Panorama Restaurant also serves full board meals for guests of the hotels Jadran and Trst.

Another restaurant to convince you that culinary experiences are an important part of your vacation is the **à la carte Veranda Restaurant** in the Hotel Golf. Renowned chefs will spoil you with the best traditional and international dishes.

The young kitchen team in the restaurant of **the Hotel Golf** will be happy to listen to your wishes. Their basic aim is to follow contemporary nutritional guidelines: in addition to a diverse traditional menu, they also prepare tasty healthy dishes every day that the guests can select from a special health corner. The restaurant is also a great choice for private groups, formal dinners, banquets, weddings or work lunches.

Are you looking for more pampering? Visit the renowned **Rikli Restaurant next to the Hotel Park**, where they spoil the most demanding guests with excellent fish and meat dishes. The neighbouring **Rikli Pizzeria** with its wide selection of pasta and pizzas will delight all fans of Italian cuisine.

In the pleasant **restaurant of the Hotel Park**, the day starts with a sumptuous buffet breakfast. Full board meals are also served here. The restaurant can accommodate private groups of up to 350 people.

Your visit to Bled will be even more perfect if you take a short break in the **Park Restaurant and Coffeehouse** opposite the hotel where, among other things, the original Bled cream slice is available – it was actually first created right here, in the desert kitchen of the Hotel Park.

The Bled Golf Course

The Bled Golf Course is one of the oldest golf courses in this part of Europe, having opened to the public as early as 1937. Even then, experts said that it was one of the most beautiful golf courses in Europe, since golfers are surrounded by idyllic nature at every step and spoiled by magnificent views. In 1940, the British ambassador Sir R. Campbell told a journalist, “You can truthfully publish that this is the most beautiful golf course on the Continent...” and even today, many modern golfers are of the same opinion. Especially since 1972, when the 18 hole King’s Golf Course was redesigned by the renowned golf architect Donald Harradine. Taking into account all the natural features, he succeeded in creating an architectural masterpiece. In 2009, the Bled Golf Course was 54th on the list of the best and most beautiful golf courses in Eu-

rope. The fact that golfers use every single club in their bag when playing here demonstrates how varied and diverse the terrain is. It is no surprise that golfers keep coming back to this course.

In 1992, the King’s Golf Course was joined by the modern Lake Golf Course, featuring more varied terrain, 9 holes and 3 water hazards. This is favoured by players looking to test their mastery of the game in the face of water hazards. There is a practice putting green next to the Lake Golf Course.

The King and Lake Golf Courses cover almost 100 ha of land. They are distinguished by their size and the positioning of the holes. The exceptional natural features make each hole a unique

The Fairytale Game of Nature

experience and, thanks to its location in the embrace of Slovenia's highest mountain, the course resembles a park.

The Bled Golf Course offers many possibilities for both beginners and experienced golfers, as well as the most demanding professional players who participate in tournaments all over the world. At the practice facility, players can take advantage of a driving range, a practice putting green, a green with a sand hazard and a chipping green. Players looking to learn the game or improve their technique can hire a professional golf instructor. For children, we offer carefully compiled golf learning programmes, including golf camps.

Golfers can relax in the comfort of the **King's Club House**, a jewel of rustic Slovenian architecture. Its interior is decorated with an unusual fresco by Gabrijel Stupica, depicting angels swinging golf clubs. The King's Club House also has a renowned restaurant with an excellent menu and fine Slovenian wines for a pleasant meal with friends or business partners. The nine comfortably furnished double rooms are ideal for a true golfing vacation.

The Jezerska hiša Inn (Lake House Inn) by the Lake Golf Course attracts guests who enjoy its friendly atmosphere and Alpine style. Golfers like to sit on the shady terrace and choose from the menu of excellent Slovenian dishes. The inn also offers four comfortable double rooms.

Meetings and Incentives

Bled has always been an attractive location for meetings and events with special meaning. The location of Slovenia in the centre of Europe makes it easily accessible and Bled is only 30 km away from Slovenia's main international airport, the Ljubljana Jože Pučnik Airport. The highly experienced event organisers and the well equipped event rooms at the Grand Hotel Toplice and the Golf and Park hotels guarantee the successful organisation of business, educational, social and protocol events.

The Jupiter hall, holding up to 350 people, makes Hotel Golf the leading Bled hotel for conferences and meetings. Other popular locations for such events are the luxurious Grand Hotel Toplice on the shore of Lake Bled and the Hotel Park, situated in the heart of Bled and offering its visitors genuine contact with the Bled life.

The Jupiter hall is the largest conference hall in Bled and the sur-

rounding area. In addition to the Jupiter hall, the Hotel Golf also houses several smaller halls, enabling the organisation of multiple events at the same time.

The Hotel Park houses a small conference centre comprising four interconnected halls with room for 60 to 120 people. In addition to these halls, a further four halls for up to 30 participants are located on other floors of the hotel, where multiple small meetings can be held at the same time.

In the Grand Hotel Toplice, business event organisers can take advantage of the well equipped Panorama hall for up to 150 people and the Grand hall for conferences and banquets. Another important advantage of organising an event in one of the Sava Hotel Bled hotels is the wide variety of options provided by 10 restaurants with a rich menu. In addition to the basic catering capacities

Every Event a Perfect Success

for conferences, they also offer organised coffee and snack breaks, business lunches, hot and cold buffets, formal dinners, banquets, receptions, cocktail evenings, etc.
