WELLNESS ŽIVA

RIKLI BALANCE HOTEL

A person is relaxing on a wooden lounge chair with a beige cushion in a spa setting. The background is a wall of grey stone tiles. The person's legs are visible, wearing white shorts, and their feet are resting on the chair. The overall atmosphere is calm and relaxing.

Živa Wellness – the source of youthfulness, gracefulness and beauty

We celebrate life at the Živa Wellness! And we also stand for everything that the Slavic goddess Živa and our namesake represents: long life, youthfulness, beauty, grace, fertility and vitality.

Our wellness treatments focus on life and vitality. They represent the confluence of Alpine freshness and the Rikli healing concept. The synergy of the environment and method has given rise to unique wellness products that you will not be able to find or experience anywhere else: the massage using spruce tips for muscle relaxation, beauty treatments, which use the honey produced by the famed Carniolan honey bee and are aimed at glistening skin and the Pokljuka Ritual for complete regeneration are but a few of the treatments that we offer.

The effect of the treatments on offer is enhanced by thermal water and the magnificent healing power that has for a long time been attributed to Bled, its legendary nature, unique climate with plenty of sunny days and positive energy. You will return from Bled feeling reborn!

Treatments with an Alpine note

Slovenia is an Alpine country. The Alpine world is characterised by spruce forests among other things. The spruce was believed in the ancient times to be a tree that can take on a person's disease. This is why it is held in especially high regard in medicine. The treatments at the Živa Wellness use spruce for preventative as well as relaxation purposes.

In the footsteps of Arnold Rikli

The tradition of natural medicine at Bled goes back to the 19th century when the Swiss, Arnold Rikli, founded a natural health resort here. He based his healing on natural factors: air, water and sunshine. He encouraged exercise in fresh air, moderate and high-quality diet, and invigorating sleep. You can follow the Rikli health programme while staying with us: get up before sunrise, drink fresh Bled water on an empty stomach, walk barefoot on the Rikli barefoot trail, enjoy light meals, swim, sunbathe and walk in the fresh Alpine air. At Živa Wellness, you can try the treatments that have been adapted to the Rikli healing methods.
